@ChrisEdwardsCE

INSTALLATION

DATA DRIVEN
LABS

@ChrisEdwardsCE

Two Methods

I suggest using Monster Insights if you're a beginner. It has a simple setup process that will walk you through setting up your Google Analytics account and tracking your website.

Advanced users can install the Google Analytics code directly or use Google Tag Manager

Installing Code

Add the provided code from Google Analytics to the **<head>** of your website.

Most themes have an option or setting that allows you to add scripts to the head section. Check with your theme support on where this can be found.

```
<!-- Google Analytics -->
<script>
(function(i,s,o,g,r,a,m){i['GoogleAna
(i[r].q=i[r].q||[]).push(arguments)},
m=s.getElementsByTagName(o)[0];a.asyn
})(window,document,'script','https://

ga('create', 'UA-XXXXX-Y', 'auto');
ga('send', 'pageview');
</script>
<!-- End Google Analytics -->
```

AUDIENCE REPORTS

DATA DRIVEN
LABS

@ChrisEdwardsCE

Know Your Visitors

Audience report is the largest section within Google Analytics. It has 15 sub-sections.

These sections show demographics, geo location, technology, interests and more.

FILTERS & ADVANCED SEGMENTS

**DATA DRIVEN
LABS**

@ChrisEdwardsCE

Filter vs Advanced Segments

Filter - A filter is applied to a profile view and is permanent. This stops the data from ever being saved into a profile.

Advanced Segment - An advanced segment allows you to isolate similar visitors into groups. These can be applied to any report without making permanent changes to your data.

@ChrisEdwardsCE

How To Create a Filter

The screenshot shows the Google Analytics Admin interface for the 'Effin Amazing' property. The top navigation bar includes 'Home', 'Reporting', 'Customization', and 'Admin'. The user is logged in as 'chris@amazingcorps.com' with the account 'Effin Amazing - Website - http://effinam...' and the view 'All Web Site Data'. The breadcrumb trail is 'Administration > View Filters'. The main heading is 'Effin Amazing / Effin Amazing - Website / All Web Site Data'. On the left sidebar, under the 'VIEW' section, the 'All Web Site Data' view is selected. Below this are links for 'View Settings', 'User Management', 'Goals', and 'Content Grouping'. The 'Filters' link is highlighted at the bottom of the sidebar. The main content area shows a table with columns 'Rank', 'Filter Name', and 'Filter Type'. A red arrow points to the '+ ADD FILTER' button in the top left of the table. The table is currently empty, and a message 'There is no data for this view.' is displayed.

Other Cool Things With Advanced Segments

The screenshot displays the Google Analytics Advanced Segments configuration window. On the left, a sidebar lists various filter categories: Demographics, Technology, Behavior, Date of First Session, Traffic Sources, Advanced, Conditions, and Sequences. The 'Sequences' category is selected and highlighted with a red arrow. The main area is titled 'Sequences' and includes a description: 'Segment your users and/or their sessions according to sequential conditions.' Below this, a filter configuration box is shown with the following settings: 'Filter' set to 'Include', 'Sessions' selected, and 'Sequence start' set to 'Any user interaction'. A single step, 'STEP 1', is configured with 'Ad Content' as the filter type, 'contains' as the operator, and an empty text input field. A red arrow points to the 'Add Step' button below the step configuration. At the bottom of the filter configuration box is a '+ Add Filter' button. The right sidebar shows a 'Summary' section with a large blue circle indicating '100.00% of users'. Below this, it shows 'Users' as '-', 'Sessions' as '-', and '100.00% of sessions'. At the bottom of the right sidebar is a 'No Filters' button. The top of the window features a 'Segment Name' input field, a 'Save' button, a 'Cancel' button, and a 'Preview' button. A status message at the top right states 'Segment is visible in any View' with a 'Change' link.

Advanced Segments Gallery

The screenshot displays the Google Analytics Advanced Segments Gallery. On the left, a sidebar lists various dimensions and metrics. The main area shows a modal window with search and filter options. The 'Sort by' section includes 'Most popular' (selected), 'Latest', and 'Highest rating'. The 'Filter by ranking' section has a slider from 1 to 5 and a 'Show unrated' checkbox. The 'Filter by category' section includes a 'Show all categories' checkbox and a list of categories: Acquisition, Analytics Academy, Branding, Campaign, Conversion, Display Advertising, Ecommerce, Engagement, Enhanced Ecommerce, Lead Generation, Mobile, Organic Search, and Paid Search. The gallery lists three featured segments: 'Occam's Razor Awesomeness' by Avinash Kaushik (Aug 20, 2013), 'New Google Analytics User Starter Bundle' by The Google Analytics Team (Sep 20, 2013), and 'Social Media Traffic' by Rachel W (GA team) (Mar 1, 2013). Each segment entry includes a star rating, user count, and social media sharing options. The background shows the Google Analytics interface with a search bar and a list of segments.

@ChrisEdwardsCE

EVENT TRACKING

DATA DRIVEN
LABS

@ChrisEdwardsCE

What is Event Tracking?

Events are user interactions with content that can be tracked independently from a web page or a screen load.

Downloads, mobile ad clicks, gadgets, Flash elements, AJAX embedded elements, and video plays are all examples of actions you might want to track as Events.

DATA DRIVEN
LABS

#WCJAX

@ChrisEdwardsCE

Event Tracking

Top Events	Event Action	Total Events	% Total Events
Event Category	1. copy	5,575	95.19%
Event Action	2. addnew	223	3.81%
Event Label	3. save	59	1.01%

Primary Dimension: Event Action Event Label Other					
Plot Rows Secondary dimension Sort Type: Default					
	Event Action	Total Events	Unique Events	Event Value	Avg. Value
		5,634 % of Total: 96.19% (5,857)	1,741 % of Total: 9.58% (18,166)	0 % of Total: 0.00% (0)	0.00 Avg for View: 0.00 (0.00%)
<input type="checkbox"/>	1. copy	5,575 (98.95%)	1,724 (98.35%)	0 (0.00%)	0.00
<input type="checkbox"/>	2. save	59 (1.05%)	29 (1.65%)	0 (0.00%)	0.00

Event Tracking JavaScript

Implementation

```
ga('send', 'event', [eventCategory], [eventAction], [eventLabel], [eventValue], [fieldsObject]);
```

Field Name	Value Type	Required	Description
eventCategory	text	yes	Typically the object that was interacted with (e.g. 'Video')
eventAction	text	yes	The type of interaction (e.g. 'play')
eventLabel	text	no	Useful for categorizing events (e.g. 'Fall Campaign')
eventValue	integer	no	A numeric value associated with the event (e.g. 42)

Example

```
ga('send', 'event', 'Videos', 'play', 'Fall Campaign');
```

GOAL TRACKING

DATA DRIVEN
LABS

@ChrisEdwardsCE

What is Goal Tracking?

Goals measure how well your site or app fulfills your target objectives. A Goal represents a completed activity, called a conversion, that contributes to the success of your business.

Examples of Goals include making a purchase (for an ecommerce site), completing a game level (for a mobile gaming app), or submitting a contact information form (for a marketing or lead generation site).

**DATA DRIVEN
LABS**

#WCJAX

@ChrisEdwardsCE

Types of Goal Tracking

URL Destination Goals - Tracks visits to a URL.

Visit Duration Goals - How long people stay on your site.

Pages/Visit Goals - Number of pages visited.

Event Goals - Goals based off the firing of an event using event tracking.

**DATA DRIVEN
LABS**

Destination Based & Event Based

Goals (set 1): Goal 4

General Information

Goal Name

☒ Active ☐ Inactive

Goal Type ☒ URL Destination
☐ Visit Duration
☐ Page/Visit
☐ Event

Goal Details

Goal URL
e.g. For the goal page <http://www.mysite.com/thankyou.html> enter [/thankyou.html](#). To help you verify that your goal URL is set up correctly, please see the tips [here](#).

Match Type

Case Sensitive ☐
URLs entered above must exactly match the capitalization of visited URLs.

Goal Value optional

Goal Funnel

A funnel is a series of pages leading up to the goal destination. For example, the funnel may include steps in your checkout process that lead you to the thank you page (goal).

Use funnel ☐
Please note that the funnels that you've defined here only apply to the Funnel Visualization Report. Note: URL should not contain the domain (e.g. For a step page <http://www.mysite.com/step1.html> enter [/step1.html](#)).

Goals (set 1): Goal 4

General Information

Goal Name

☒ Active ☐ Inactive

Goal Type ☐ URL Destination
☐ Visit Duration
☐ Page/Visit
☒ Event

Goal Details

1. Configure a combination of one or more event conditions from the list below

Category

Action

Label

Value

2. For an event that meets the above conditions set the following goal value

Goal Value ☒ Use the actual Event Value
☐ Use a constant value

**DATA DRIVEN
LABS**

#WCJAX

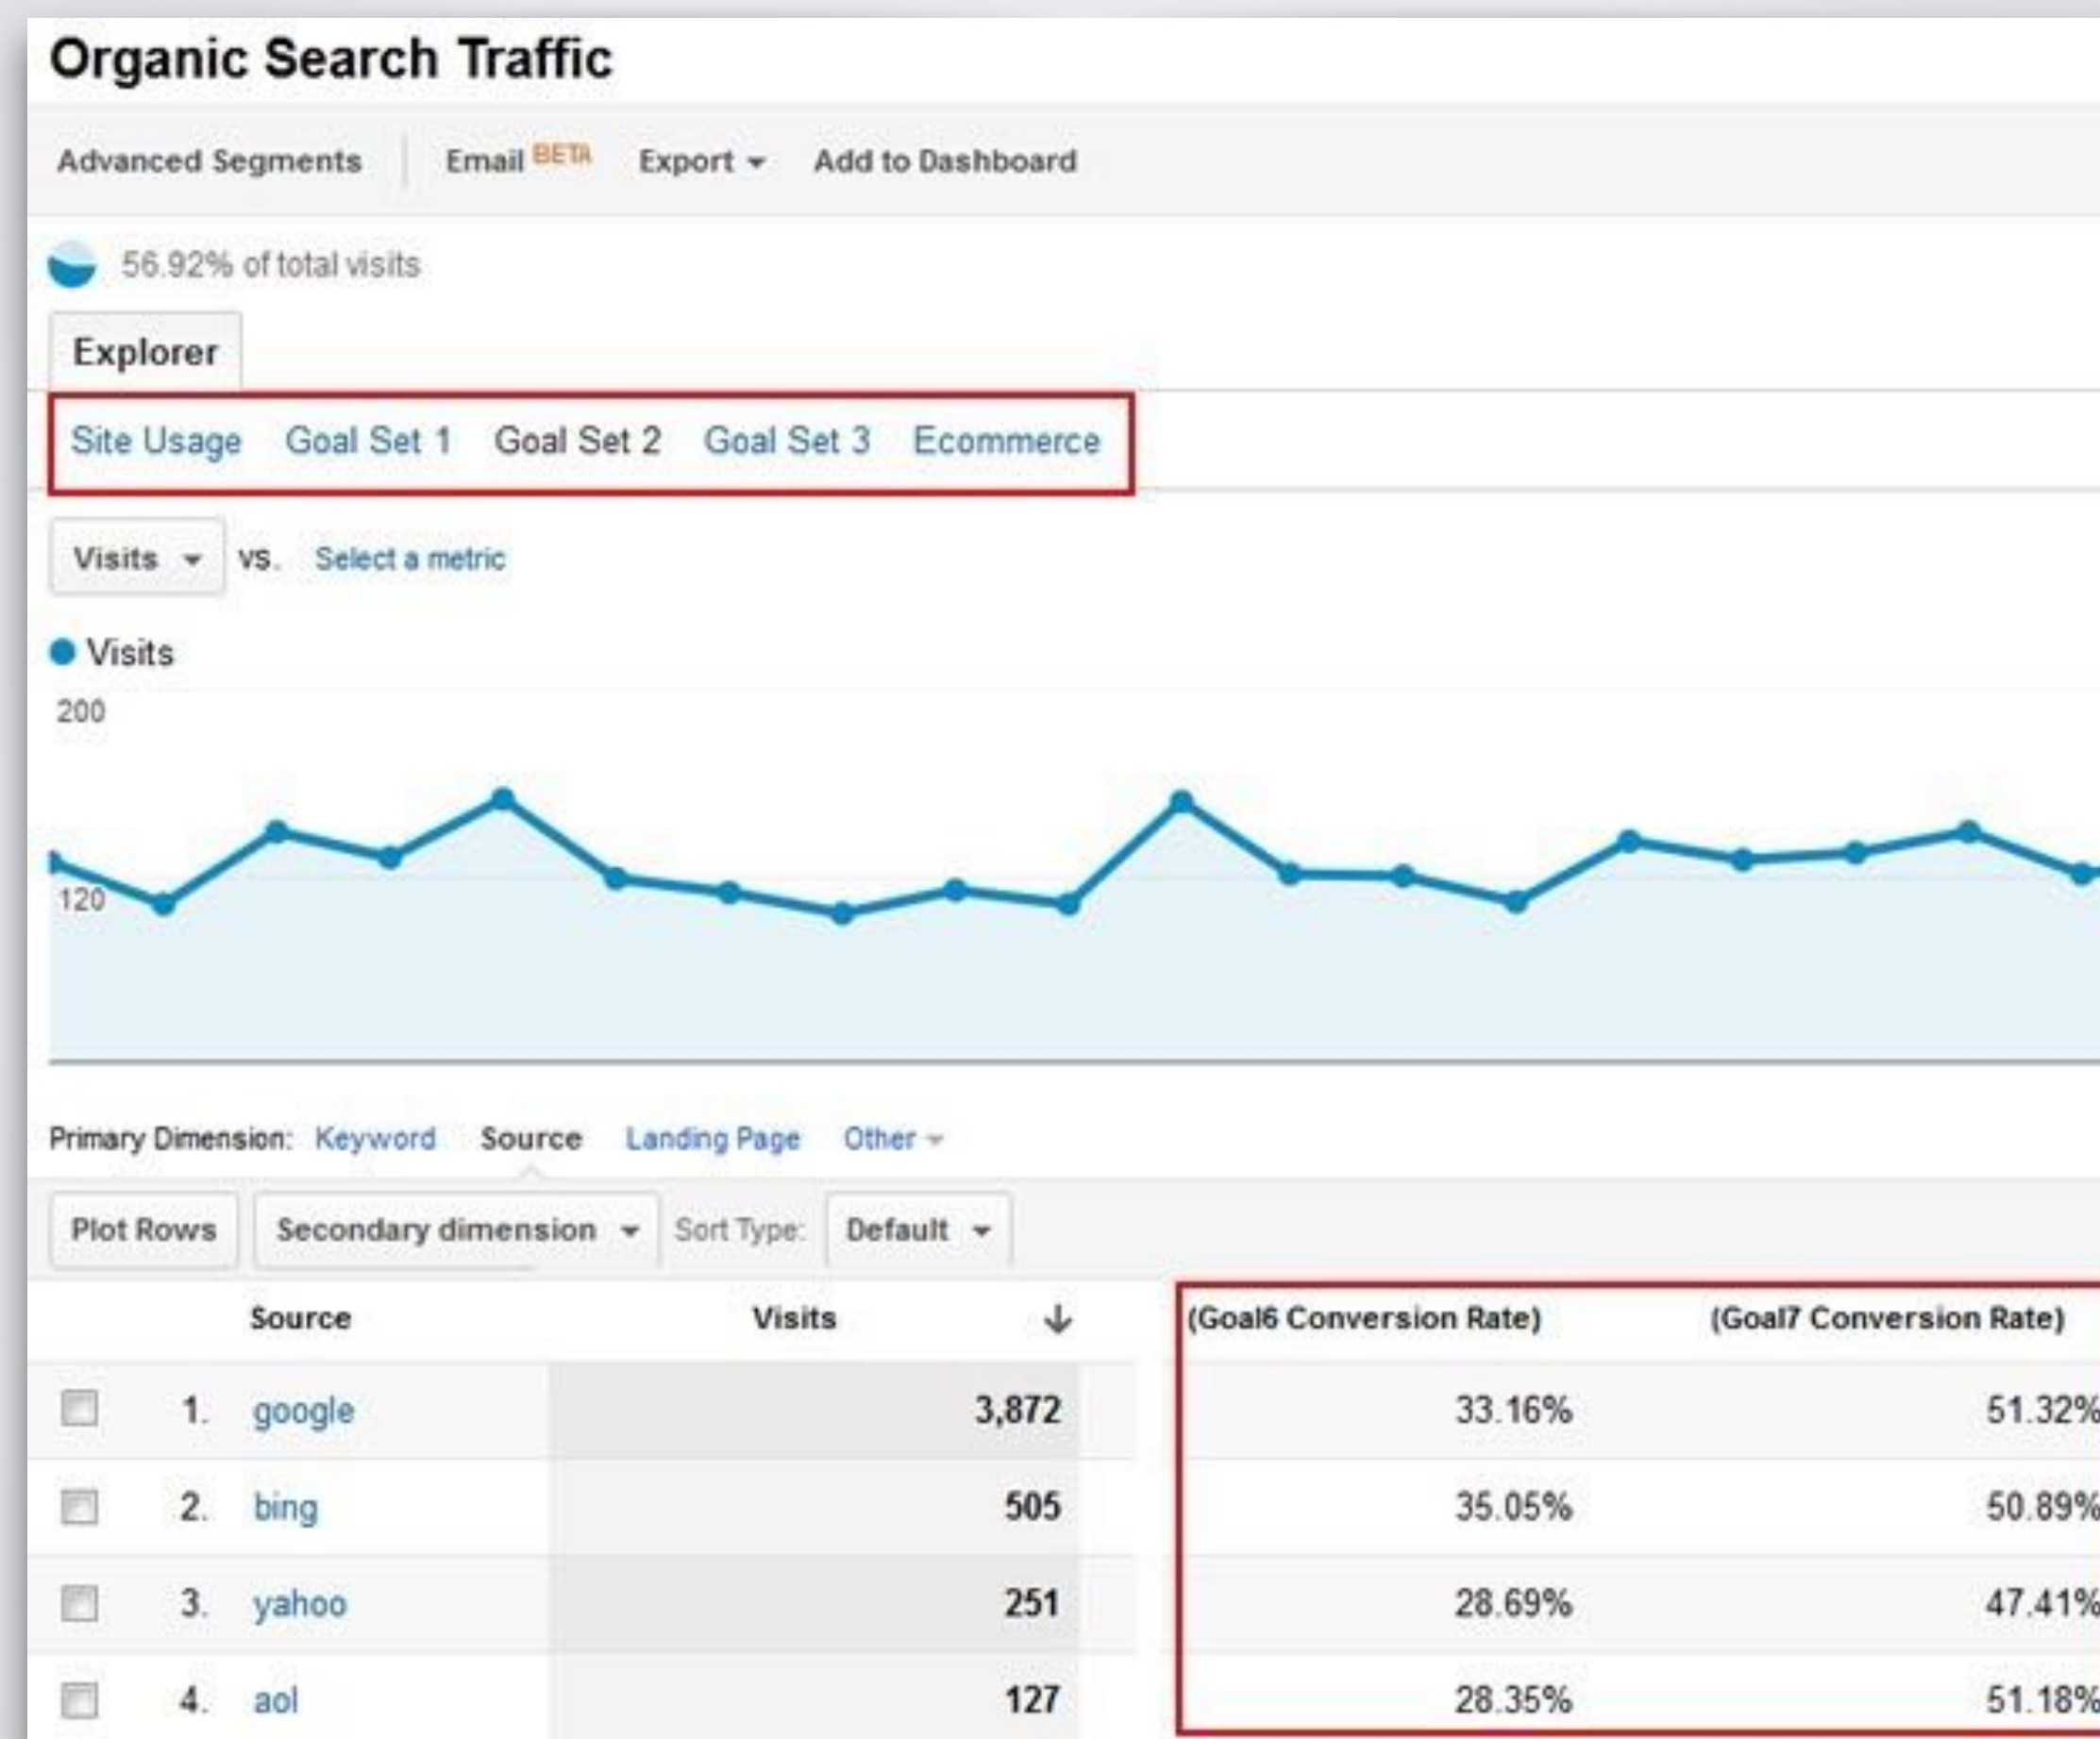

@ChrisEdwardsCE

Goal Value

Assign a value for each goal. This should not be your only way of tracking revenue.

Goal values can be useful when looking for the ROI on specific campaigns, referrals, social sources and more.

Conversion Rate

DATA DRIVEN
LABS

#WCJAX

@ChrisEdwardsCE

CUSTOM DASHBOARDS

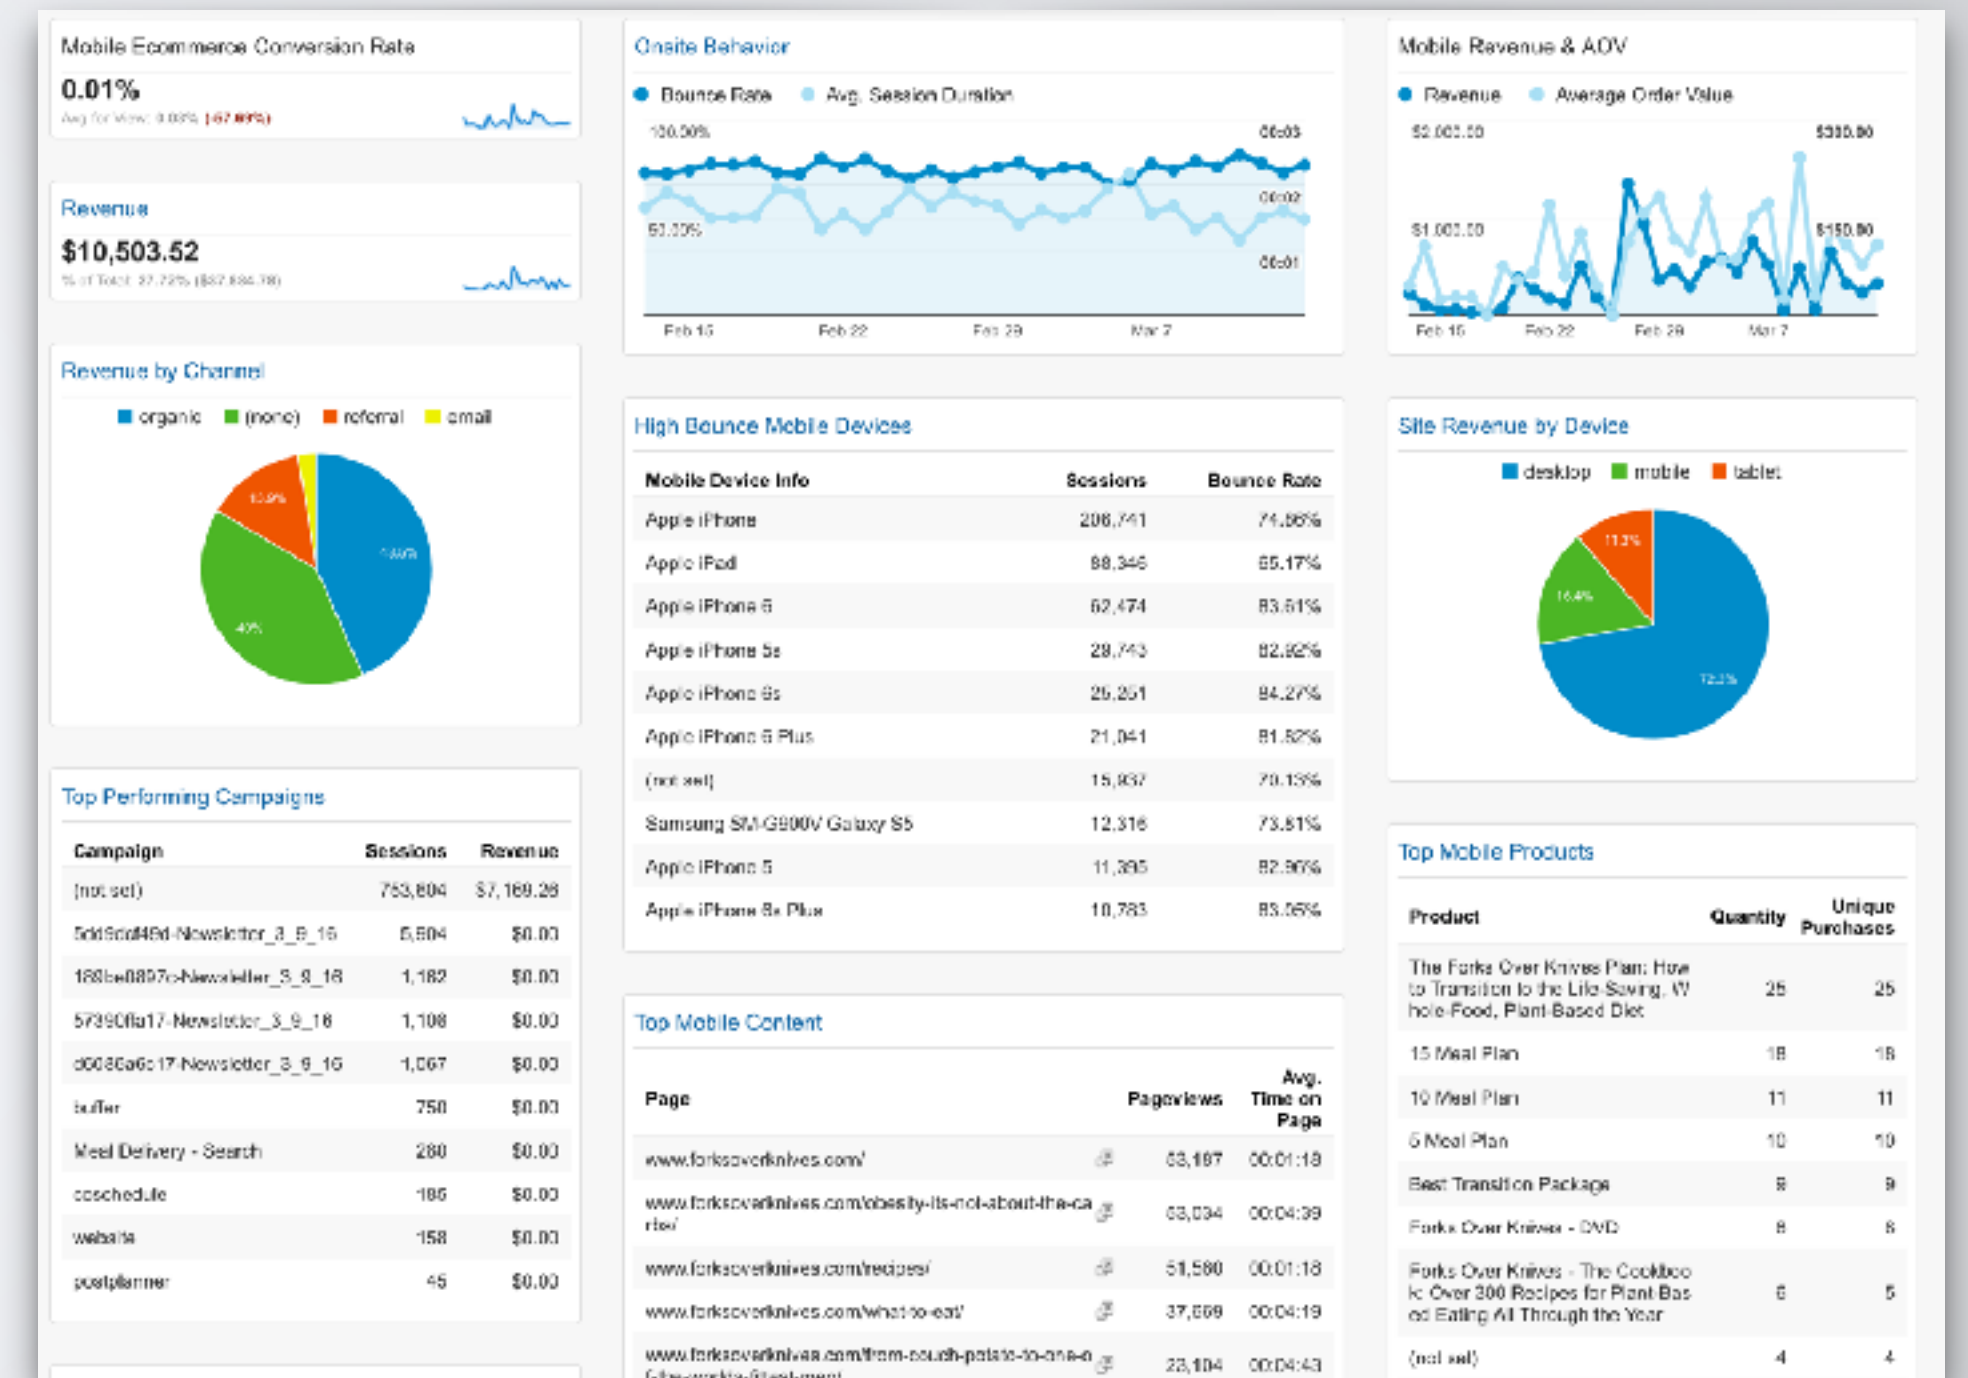

DATA DRIVEN
LABS

@ChrisEdwardsCE

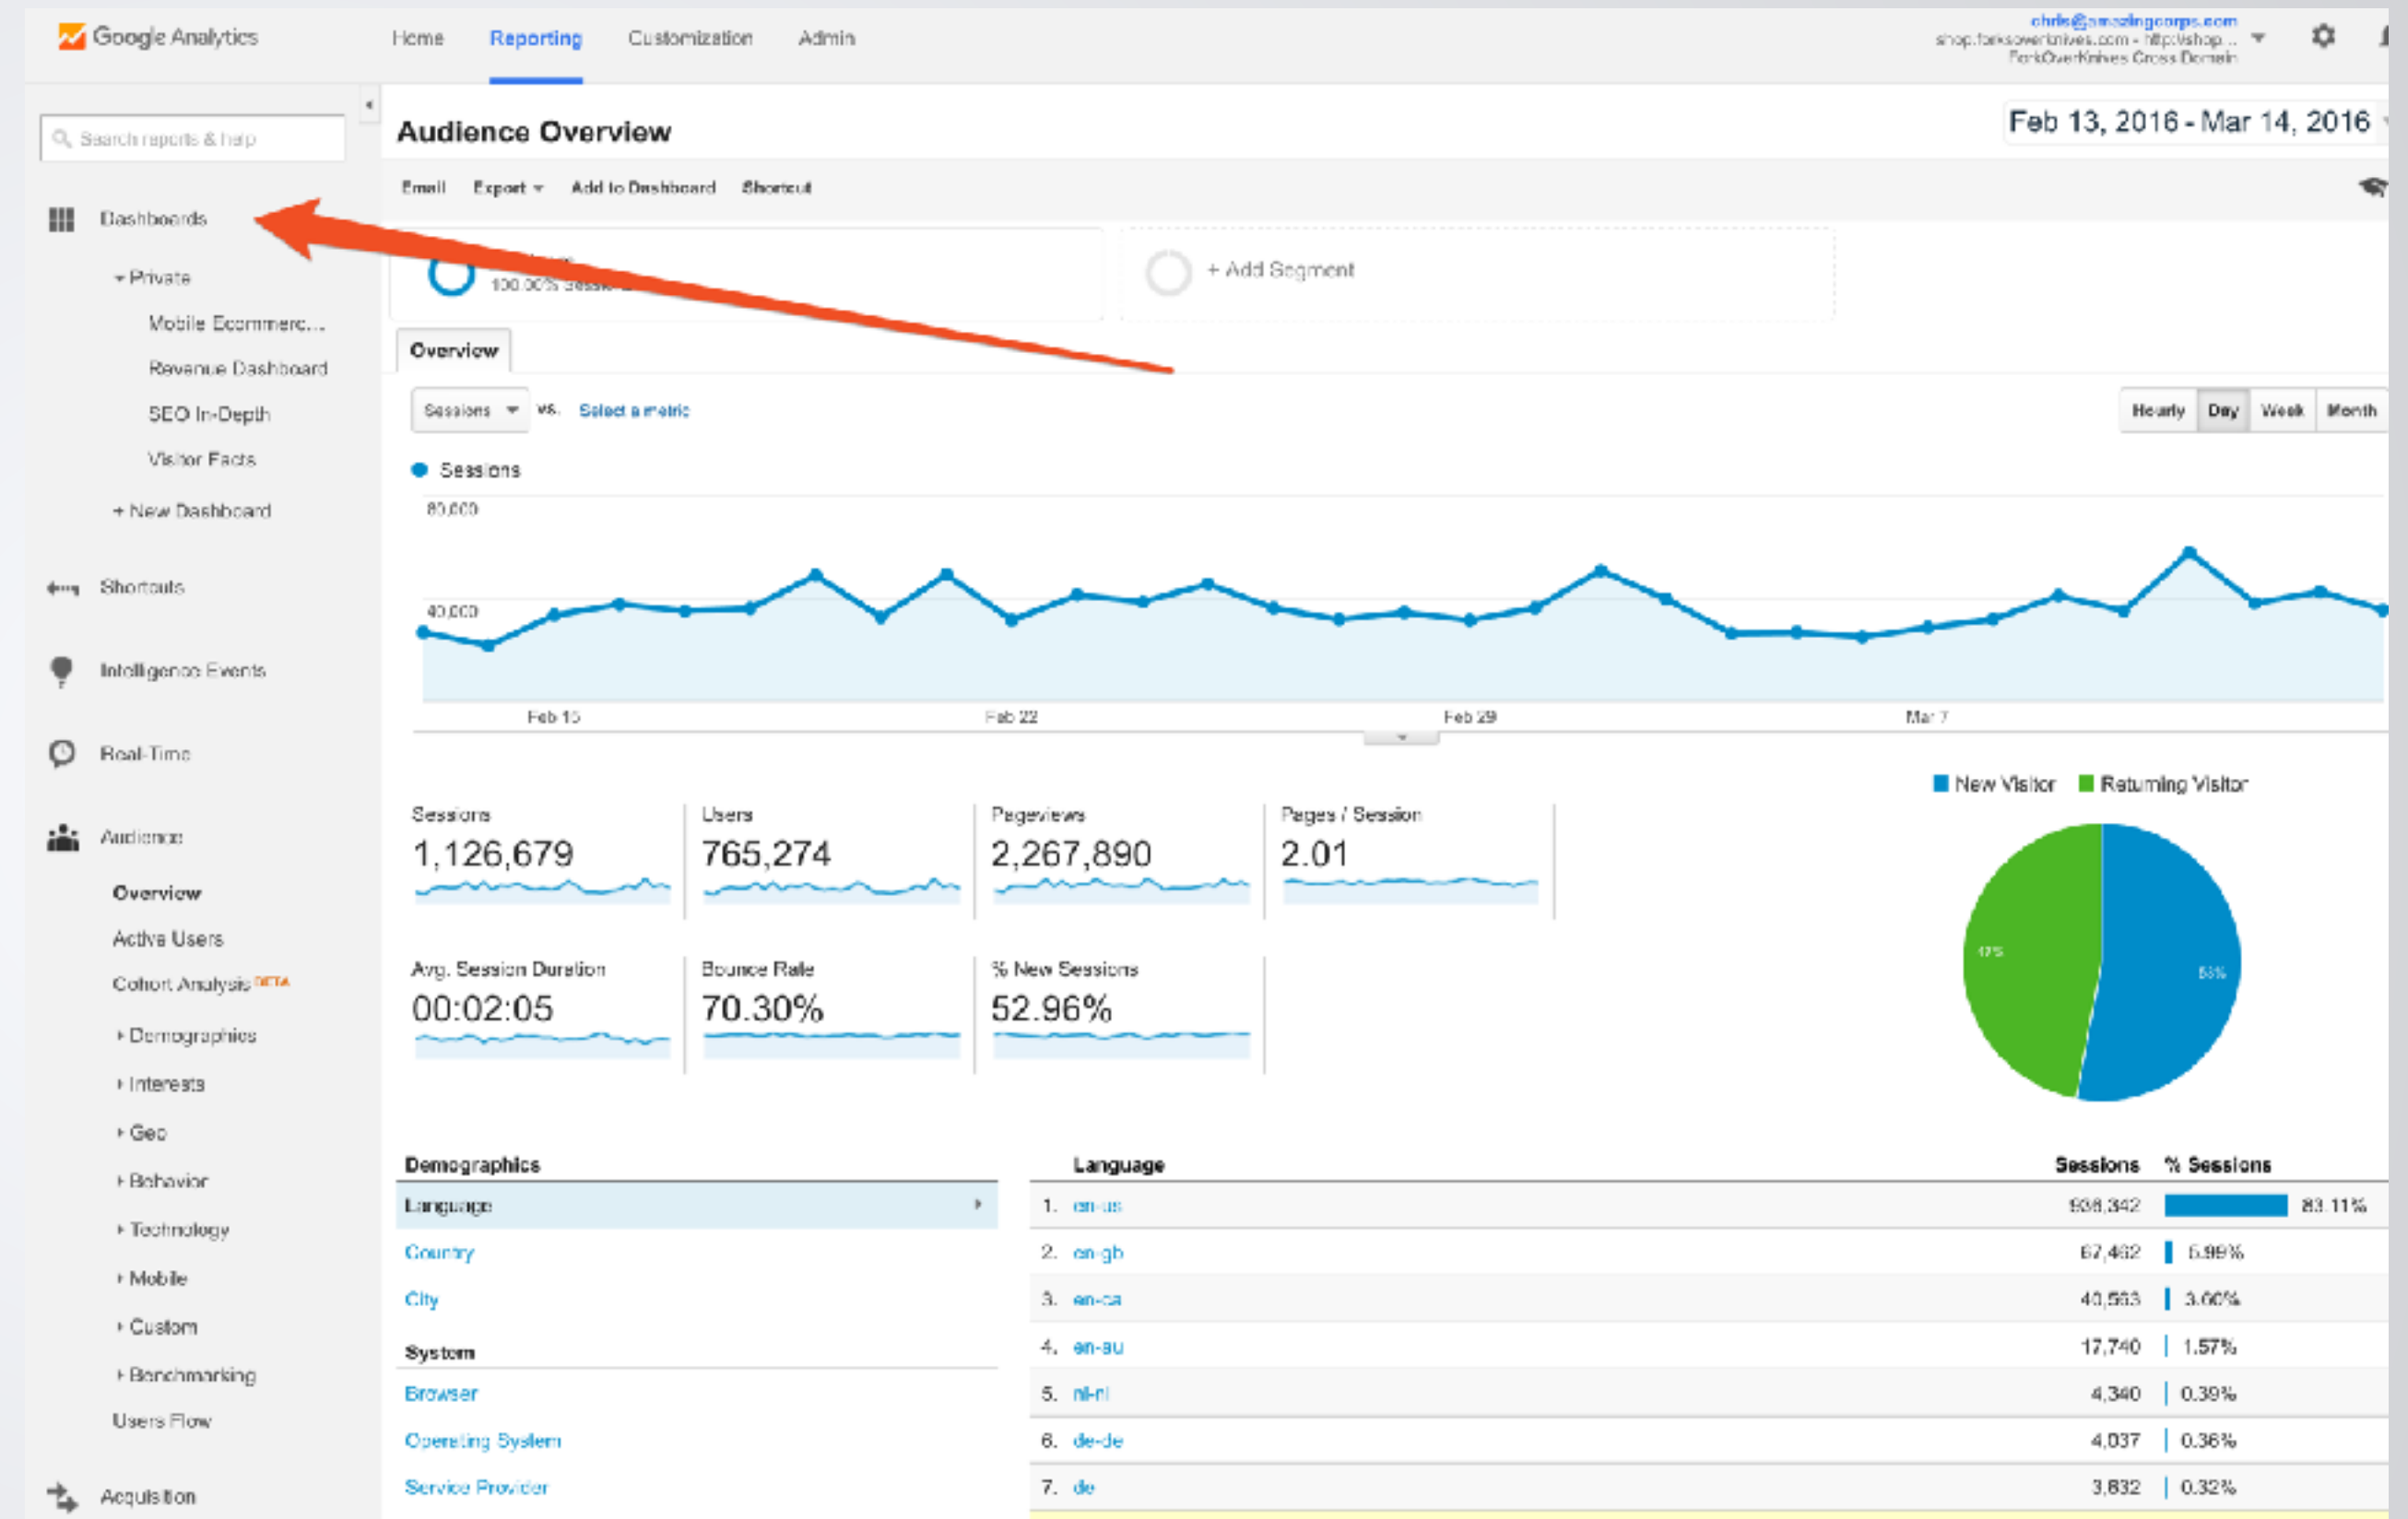

Custom Dashboards

Dashboards are a collection of widgets that give you an overview of the reports and metrics you care about most. Dashboards let you monitor many metrics at once, so you can quickly check the health of your accounts or see correlations between different reports.

Custom Dashboards

To access dashboards, a user needs to navigate to the property view, select the Reporting tab, and then select Dashboards.

Custom Dashboard Examples

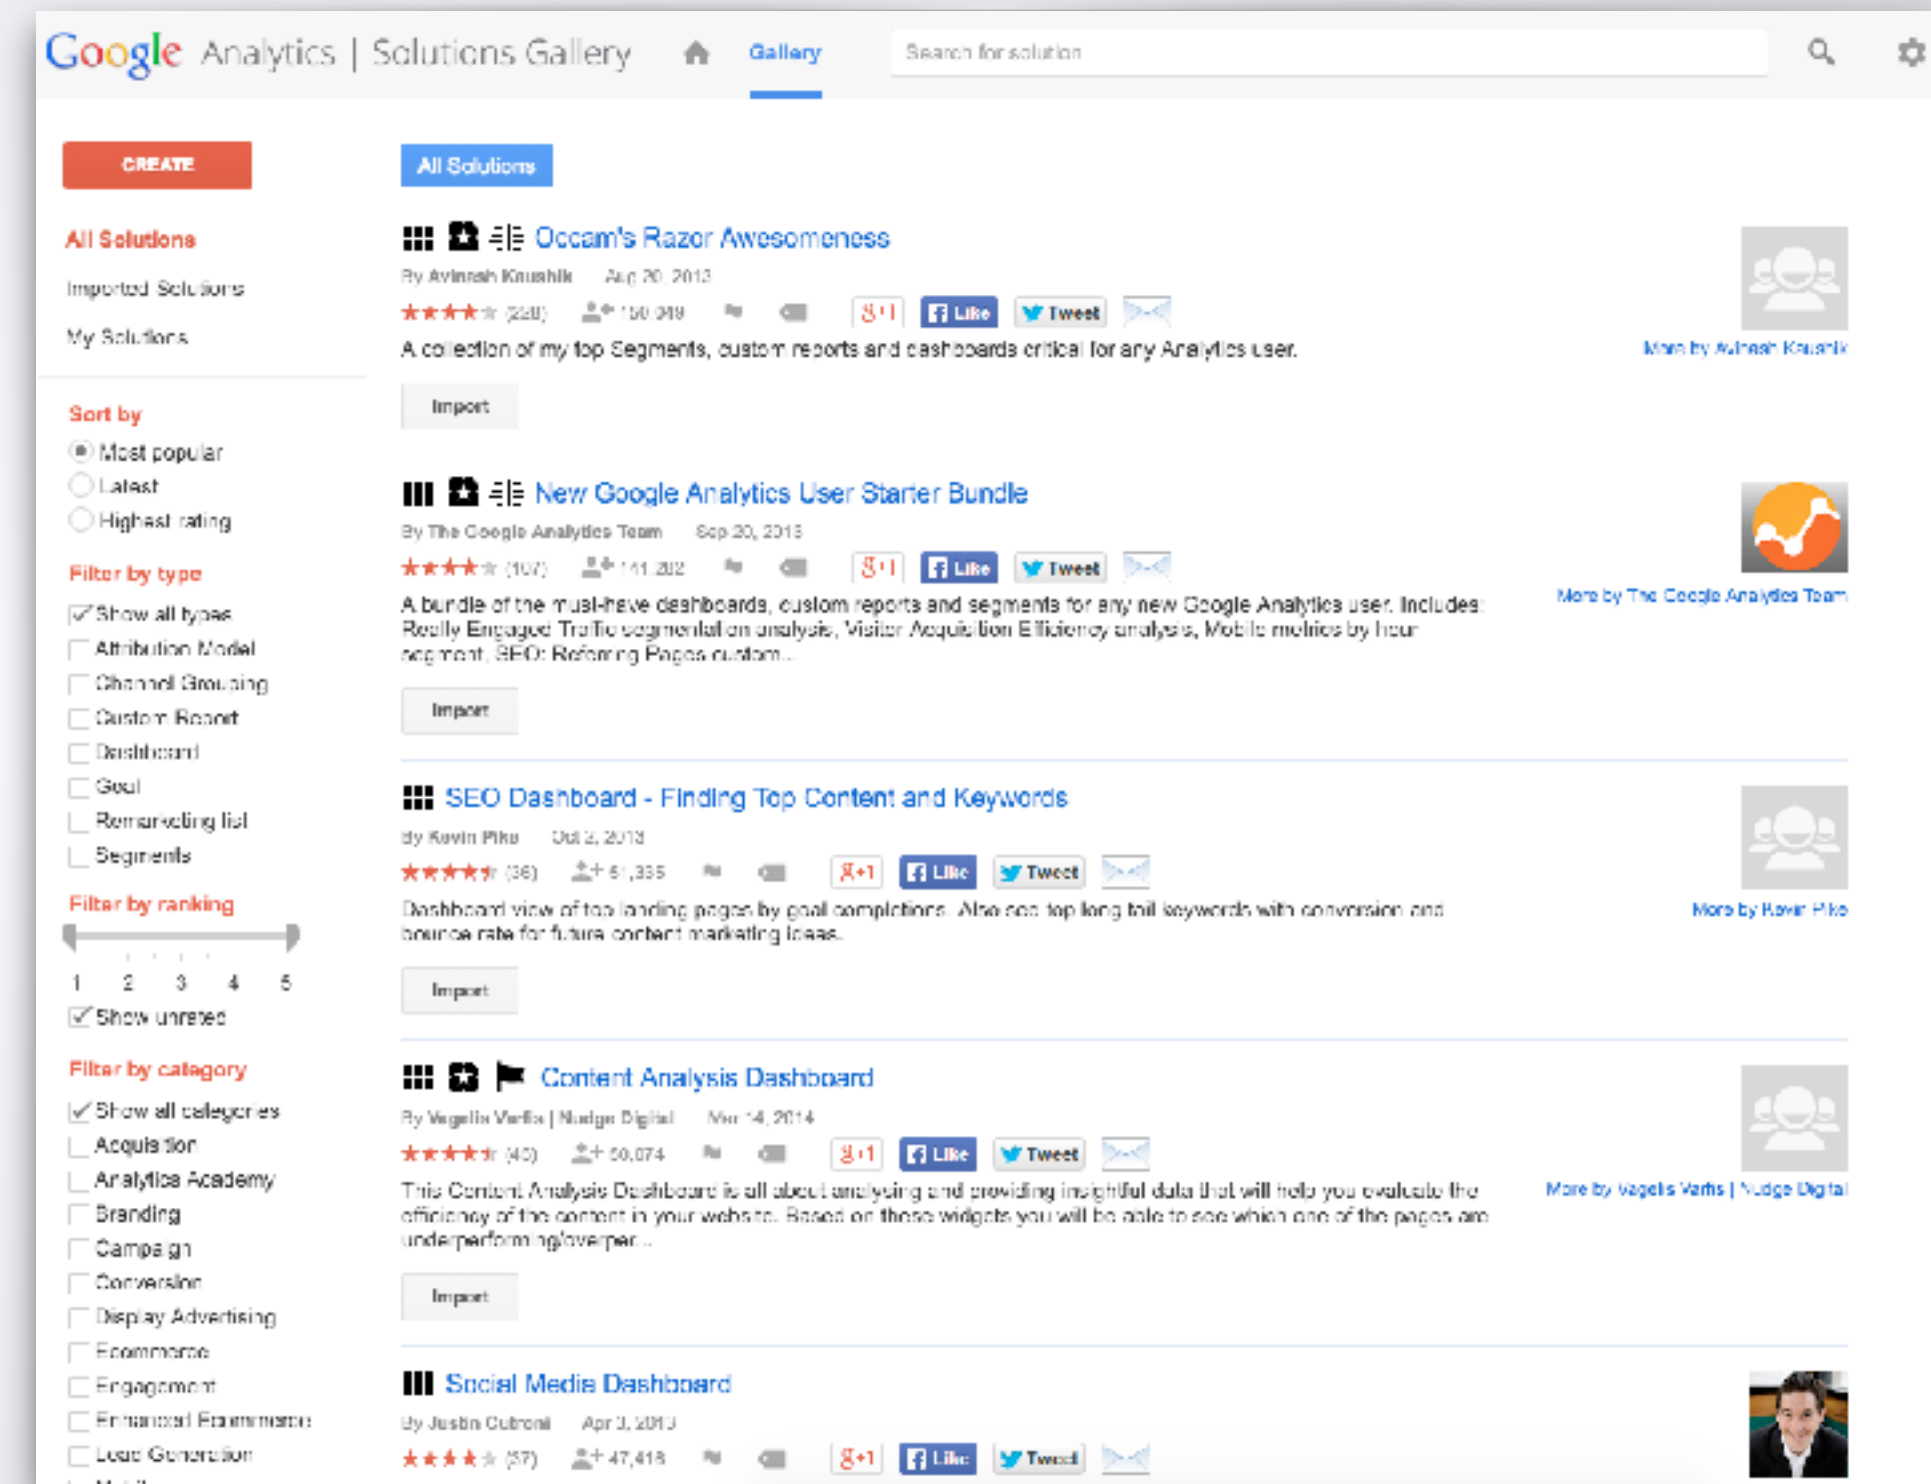

- Goals & Conversions
- Different SEO Dashboards
- Social Media Dashboard
- Visitor Facts Dashboard
- Ecommerce Dashboard
- Mobile Dashboard

Google Analytics Solutions Gallery

Pre-Built items that can be imported to your Google Analytics account.

TRACKING ROI WITH UTM_s

DATA DRIVEN
LABS

@ChrisEdwardsCE

Know What Drove Traffic!

Without UTMs, you can already see the referral source of your traffic, but you do not know which campaign, which tweet, which email actually drove the traffic.

UTMs allow you to know exactly what is working and where to spend more marketing dollars.

DATA DRIVEN
LABS

#WCJAX

@ChrisEdwardsCE

DEFINITION

A UTM (Urchin Tracking Module) is a group of tags appended to the end of a URL. When these tags are appended, it allows you track the specifics of your source.

Campaign Name: **product**

DATA DRIVEN
LABS

#WCJAX

@ChrisEdwardsCE

Campaign Source

?utm_source=google

This is the referrer of the traffic to your page. This is normally the website, platform or tool you posted your link on.

EXAMPLES

Google

Facebook

Twitter

Mailchimp

Outbrain

Reddit

Suggested

**DATA DRIVEN
LABS**

#WCJAX

@ChrisEdwardsCE

Campaign Medium

?utm_medium=cpc

This is the marketing medium that referred the traffic. Unlike the source, it tracks the type of traffic.

EXAMPLES

cpc

banner-ad

email

post

tweet

article-link

Suggested

**DATA DRIVEN
LABS**

#WCJAX

@ChrisEdwardsCE

Campaign Name

?utm_campaign=product

This acts as the identifier for a specific campaign, product or offering that you're driving traffic to.

EXAMPLES

spring-sale
social10152015
product

your promo code (25off)

Required

DATA DRIVEN
LABS

#WCJAX

@ChrisEdwardsCE

Campaign Content

?utm_content=mixpanel

This is an optional part of a UTM, but allows you to easily differentiate between ads on the same channel. Good for A/B testing ad copy.

EXAMPLES

content-a

content-b

Optional

Campaign Term

?utm_term=segmentation

This is also an optional part of a UTM, but allows you to easily differentiate between different ad keywords.

EXAMPLES

Your Key Word

Optional

@ChrisEdwardsCE

Wow, Amazing! Now, how the heck to I create these
“UTMs” for my campaigns?

+ What Is Campaign Source?

+ What Is Campaign Medium?

+ What Is Campaign Name?

+ What Is Campaign Term?

URL Shorteners

UTMs are long and ugly! Utilize URL shorteners to create easier to view URLs and shorter to type URLs.

A popular shortener services:

<http://bit.ly>
